Add to your home screen on phones and tablets. Yes, it can be on multiple devices.

How to I add it the home screen on a smartphone or tablet?  
Go to <https://district5930.com>, your browser will take you to the District app home screen.

**Apple - On iPhones** - At the bottom of the browser screen in the middle is a up facing arrow inside a box, click (select) the icon. **On iPads** - At the top right is a up facing arrow inside a box, click (select) the icon. A pop-up screen will appear, scroll up, from the list select "Add to Home Screen", another screen will appear, select Add at the upper right corner.

**Android** - At the top right of the browser screen click the three dots, from the list select "Add to Home Screen", another screen will appear, select Add. That's it.

**Please delete these apps,  
if you have them.**
