

**Protecting the Environment – Opportunities for Rotary and the Planet
A Webinar Not to Miss!!!**

Join us for a webinar featuring Ian Riseley, Past Rotary International President in 2017-18, and chair of The Rotary Foundation (TRF) Environmental Issues Task Force. He will share some of the background behind the decision for the Environment becoming Rotary’s new area of focus. Ian will inspire us with ideas for impactful and sustainable projects to protect the Environment.

Karen Kendrick-Hands, co-founder, past-chair, and projects director for the Environmental Sustainability Rotary Action Group (ESRAG), will discuss how Rotary’s newest cause, the Environment, creates opportunities for Rotary and the planet. She will review the eight action themes of Rotary’s TRF Policy Statement for Protecting the Environment, including which activities are fundable with Global Grants, and which are NOT. This is the practical information that YOU will need to plan successful environmental projects!

Wednesday April 28, 2021

7:00 pm to 8:00 pm CDT
